What They Learn

7th – 9th graders practice pro-social skills needed for success. Skills are taught directly and practiced through role play, games, cooperative and competitive activities.

Social Bridges curriculum focuses on reinforcing the following core skills: following social rules, stress management, flexibility, communication skills, self-advocacy, social filter and social prediction.

Parents receive weekly written communication on their son's individual social goals and suggestions for practicing, reinforcing and coaching skills at home.
